Contents

Volume 18

1 Invited Review
A survey of systems analysis models in forestry and forest products industries
B.B. Bare, D.G. Briggs, J.P. Roise and G.F. Schreuder

19 A generalized model of sequential decisionmaking under risk
C.C. White, III and S. Dozono

27 Capacity expansion planning for a single facility product line
H. Luss

35 A branch-and-bound algorithm for the multi-level uncapacitated facility location problem
D.-W. Tcha and B.-I. Lee

44 The multi-facility min–max Weber problem
C.D.T. Watson-Gandy

51 *V*-shop scheduling
V. Lev and I. Adiri

57 An enhanced conversion scheme for lexicographic, multiobjective integer programs
J.P. Ignizio and L.C. Thomas

62 On a class of quadratic programs
Y.P. Aneja, V. Aggarwal and K.P.K. Nair

71 Experimental research with a production planning model (*Case Study*)
Y. Seppälä and T. Orpana

76 The Pareto optimal solution of a maintenance-production differential game
S. Jørgensen

81 A note on the flow time and the number of tardy jobs in stochastic open shops
M. Pinedo

86 Mixing of non-preemptive and preemptive repeat priority disciplines
I. Adiri and I. Domb

98 A mathematical model for discrete-time buffer systems with correlated output process
H. Bruneel

111 A procedure for analysing hypergames
M.A. Takahashi, N.M. Fraser and K.W. Hipel

123 An algorithm for ranking paths that may contain cycles
E. de Queiros Vieira Martins

131 Some corrected results for the queue $GI^X/M/1$
G. Easton, M.L. Chaudhry and M.J.M. Posner (Short Communication)

133 Some numerical results for the queuing system $GI^X/M/1$
G. Easton, M.L. Chaudhry and M.J.M. Posner (Short Communication)

136 Book Reviews

143 EURO Bulletin

145 Invited Review
Applicable systems thinking
R.S. Stainton

155 Organisation implications of systems thinking: Multidimensional modular design
J. Gharajedaghi

167 A decision-theoretic framework for comparing heuristics
B.L. Golden and A.A. Assad

172 Budgeting fuel consumption in a cruise liner
C. Mar Molinero and S.N. Mitsis

184 The outer continental shelf (OCS) oil and gas supply model of the energy information administration
R. Farmer, C.M. Harris, F.H. Murphy and R.J. Damuth

198 Optimal investments in market research
I. Venezia

B.L. Golden and A.A. Assad

172 Budgeting fuel consumption in a cruise liner
C. Mar Molinero and S.N. Mitsis

184 The outer continental shelf (OCS) oil and gas supply model of the energy information administration
R. Farmer, C.M. Harris, F.H. Murphy and R.J. Damuth

198 Optimal investments in market research
I. Venezia

208 Depot location: A technique for the avoidance of local optima
J. Baxter
215 Localization in single facility location
F. Plastria
220 Operations research in the Netherlands
C.B. Tilanus
230 Reconsideration of the present value method
S. Takatsu
245 Fixed charge problems with identical fixed charges
A.A. Farley and K.V. Richardson
250 Simulating hospital emergency departments queueing systems: (GI/G/$m(t)$): (IHFF/N/∞)
J.-C. Panayiotopoulos and G. Vassilacopoulos
259 On diagonally-preconditioning the 2-steps BFGS method with accumulated steps for linearly constrained nonlinear programming
L.F. Escudero
275 Book Reviews
282 EURO Bulletin

285 Invited Review
A review of expert systems
J.K. Kastner and S.J. Hong
239 Bureaucracies, bureaucrats and technology
R.M. Lee
304 Two-phase optimization of coal strategies at a power station
W.R. Baker and H.G. Daellenbach
315 Mathematical programming in the Netherlands
W.B. van Dam and C.B. Tilanus
322 Perisable inventory management with stochastic leadtime and different selling prices
T. Nose, H. Ishii and T. Nishida
339 Solving capacitated clustering problems
J.M. Mulvey and M.P. Beck
349 A branch and bound algorithm for the two-level uncapacitated facility location problem with some side constraints
H.-B. Ro and D.-W. Tcha
359 The chance constrained critical path with location-scale distributions
M. Kress
364 On a class dynamic programming problems whose optimal controls and states are independent of the future
H.U. Buhl and J. Siedersleben
369 Production rate optimization in a two-stage system with finite intermediate storage
A. Wolisz
377 A polynomial algorithm for minimum quadratic cost flow problems
M. Minoux
388 On a two-server finite queuing system with odered entry and deterministic arrivals
W.M. Nawijn
396 Location of depots in a sugar-beet distribution system (*Case Study*)
E. Jasińska and E. Woytych
